#### Greetings

Here we go again – my name is Bill Bower and I will serve as President of the BOD for the coming year. It will be a hard act to follow Ken Keyes as he did an incredible job dealing with all of the Covid issues in addition to the regular day-to-day business of the Association. We are all very fortunate to have had Ken's leadership during a very difficult time. Thank you Ken. Another big plus has been our Community Manager, Angie Sasser. Angie is completing her first year as our CAM and she is doing an outstanding job. The ability to be a self-starter and the attention to detail is paying big dividends for the entire community. 2020/2021 has certainly been "difficult" for TW and all of the activities to which we are accustomed. The dances, Tiki Fridays, card games and more were all put on hold. With all of the lost activities, residents

are still able to enjoy the pool, shuffleboard, bocce, horseshoes, cornhole, tennis/pickleball, quilting, exercise groups and more. Thank you to all who participated and complied with the safety guidelines. Let's all hope next season allows the return to all of our "normal" activities and events.

The positives during this year include: completion of the storage building, replacement of the parquet floor in the great room, replacement of the fire bushes at the front entry and the continued work of Lazy Daze to maintain and upgrade facilities and grounds. We hope to have final inspections completed on the storage building very soon which will allow us to occupy the building and begin completing the interior for full utilization. The floor in the

great room had reached its lifespan and the BOD felt it was time for replacement rather than continue to spend money trying to refinish the floor. It also seemed to be a good time considering the minimal use of the great room during this time of Covid. Once the fire bushes were removed a small committee researched and recommended replacement bushes. I am confident the bushes will have been planted by the time of this publication. As the season draws to a close, I wish all of the "snowbirds" a safe trip north and a good summer. For the year-round residents "summer rules" are right around the corner!! LOL I hope to see all of our friends and neighbors again in the fall.

## Cornhole 2021

by Sandy Hayward

So, yet another year of cornhole has happened and YES! WE HAD FUN! By the time you read this we will have wrapped up the playoffs during the week of March 15th and the finals during the week of March 22nd. But here's where we are so far: Tuesday afternoon league finished with Carmen Lowden and Karl Spandau moving up to win with Maureen Martelle and Rod DeGraw finishing a close second. Wednesday afternoon league we will watch Don Giles and Liz Baly go against George Flewelling and Dan Kiestlinger for First place! Thursday morning league has Carol and Ed Robinson winning this league for the 2<sup>nd</sup> year, while 5 other teams are tossing to fill 3 slots in the playoffs. And finally, Thursday afternoon league has veterans Milt Evans and Doreen Anderson in the top spot, with Linda Dishon and Mary Brown right behind them. At the end of regular play there will be 14 teams playing in the playoffs to determine the 4 best teams for the Championship Finals! I can safely say we will have some very good teams competing this year. It's exciting to see who the big winners will be.

Hopefully we will have more people playing cornhole next year. And we should also be back to a normal life after pandemic. Please come and join us! The sign-up sheets will be posted in the card room again. We are all looking forward to 2022!!

## VACCINATION

Everyone in TW has the opportunity to be vaccinated. If you cannot get a vaccine through the county, Melissa Cherry has been assisting residents through her position as pharmacist at Publix. Go to her home at 736 Butterfield Circle and leave your name and phone number, take a registration form and she will call you when vaccines become available. The only caveat is that you must be available immediately for vaccination as she is using the vaccines that "no-show" customers didn't use. Defrosted vaccines are time sensitive.

## Message from Angie

By Angie Sasser

I have officially made it through my first year at Tangerine Woods. This year has been unlike any other thanks to Covid. It was not long after I got here that we had to close everything down and many people left to return to their

other homes. I would like to thank the Community for being patient with me and the Board as we tried to maneuver through the year while trying to keep everyone safe. I know many people were unable to participate in many of the activities that they enjoy. Now that we have vaccines being administered and the country is working towards herd immunity, we can only hope that next season will be more like the previous years. I am looking forward to seeing Tangerine Woods in prime action.

This past year I was able to get a Community database/file going to help keep all information in one place. I sent out Community update forms to make sure that we have your current information. If you have not updated your information in the office within the past year, please contact us so we can make sure we have everything current. I have also begun writing a weekly update via email and posting it at the clubhouse. I will continue to send these out so that people are aware of what is going on at TW. I know many will be leaving soon or may have already left. I would like to wish you a safe journey and an enjoyable summer.

## Saying Thank You

By Terry DuBois

As residents of TW we all realize that we live on sacred ground. As TW draws people who are compassionate and loving. Tom and I wish to thank all those who came to our rescue in our time of trouble.

**Tangerine Woods Lives the Motto: Love Thy Neighbor.**

## 2021 BOCCE LEAGUES

By Len & Jane Warburton

We want to thank everyone who participated in making this a successful season in spite of the pandemic requirements. Playoffs were held the week of March 22. The overall winning team was presented with the first place trophy which they will keep until the 2022 season. Their names also were placed on the plaque in the card room. Sign up sheets for the 2022 season are posted in the equipment room, please be sure to complete all the requested information. We hope to have 12 teams per day: Tuesday, Wednesday, Thursday and Friday. Remember it is first come, first served. There is a substitute sign up sheet posted as well. We also want to thank Judy Goodrich for maintaining the Won/Loss statistics which was no easy task considering there were a total of 22 matches per week and/or a number of makeup games due to weather and quarantines. Many kudos to Art Napolitan, Bob Walker and the maintenance crews that kept the court in excellent playing condition all season. Looking forward to the 2022 season and hoping it will be a little more "normal." Again, thank you all. Stay safe.

## Rules of TW Roads

By LeeAnn Magner

Every few months it becomes necessary to remind our residents and visitors that our speed limit is **20mph.**

There are so many reasons that this is the only responsible speed in our community. We not only have an aging population, we have sandhill cranes, gopher tortoises, ibis, herons, grandchildren, and many other living critters that also use our roads. Additionally, the legal age for golf cart driving is 16. Should you allow your younger grands to drive you around in your golf cart, make sure that they are driving at a safe speed. There was an incident recently where a youngster driving a cart, almost collided with residents. Be responsible, be safe and be careful. You and the child would be devastated if a person or animal was hurt.

## American Cancer Society

What a great Poker Run we had for the American Cancer Society. So far, we have collected \$2031. Thanks to all those who participated.

The winners were:

1<sup>st</sup> place, Ron Cain-winning a complete chicken parmesan dinner for 4.

2<sup>nd</sup> place, Arthur Lozier-winning a complete chicken parmesan dinner for 2.

3<sup>rd</sup> place, Mike Kraft-winning a 2 topping pizza from Mama's.

4<sup>th</sup> place, Dennis Blaser-winning a 2 topping pizza from Mama's.

The 50/50 winners were Cindy Kleinschmit and Ed Kubicki.

The organizers of this charity event were the Gineos and the Autores. Helping them were the Rishers, Joan Palmer and Marilyn Tetrault. Hosting in the driveways were: Ferreira/Hayward, Laderoutes, Sarines, LaPalmes, Tremblays, Wrights, Stevens, and Freiburger/Chard. Thanks to everyone who worked and participated. Next year the pasta dinner will be in the clubhouse!!

## Celia's Cooking Tips

**Pickled Veggies** - Mix an even amount of salt and sugar into white vinegar, add thinly sliced veggies, marinate for about 20 minutes and then dig in! Courtesy Nancy Blaser

**Barbeque Marinade** - Mix 1 tsp. ginger, 1 tsp. dry mustard, 1 tsp. Accent (optional), 1 Tbs. molasses, 1/2 cup soy sauce, 1/4 cup oil, 2 cloves chopped garlic. Marinate meat of your choice at room temperature in glass or pottery bowl. Broil or grill. Courtesy Pete Sims

## LAZY DAZE

John Yannaci

Hello Friends and Neighbors!

We at Lazy Daze are working every week to continue to maintain our great community. Before too long many of us will return to our summer homes. So, you will start to see a reduction in forces the next 4-5 weeks. I still have a few crews to introduce, so let's get started.

Our golf cart maintenance crew is responsible for keeping our fleet in running order. Bob Wright and Karl Mortensen work tirelessly on a daily basis repairing our carts. Their job is not just on Mondays, they work all week diagnosing problems, ordering parts, charging the carts and keeping our equipment running. We all owe them a debt of gratitude for a job well done.

I would now like to introduce the lakes crew which is spearheaded by crew chief Karl Spandau. Joining Karl is Captain Mike Kraft, First Mate Ric Markley and Second Mate Tom Jackson. This crew has worked together for four years and are definitely our unsung heroes! Their primary responsibility is to maintain the lake aerators. This entails rebuilding the air pumps, installing them, and keeping the submerged air lines in working order.

These men work with a lake management company that controls weeds and algae in the lakes and monitors the condition of the water. Last fall we had a faulty aerator hose, so the crew set out in the TW lake's boat and used a grappling hook to locate the hose and bring it to the surface. The hose had been chewed through at one point and tooth marks were along the length of the hose.

Apparently we had a "bored" alligator! The hose was repaired and replaced. The next day upon inspection the hose was chewed through again so Captain Kraft and First Mate Markley found the break while mates Spandau and Jackson assisted from the safe shoreline. After completion the crew had the "Gator Guy" called and the rest is history.

This is just a fraction of the work the lakes crew does, but I want everyone to know how valuable they are.

(Continued next column)

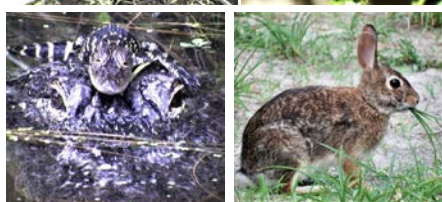

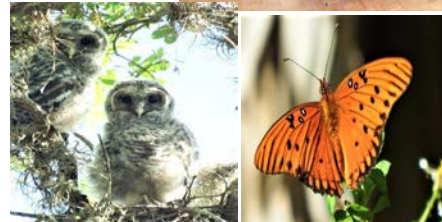

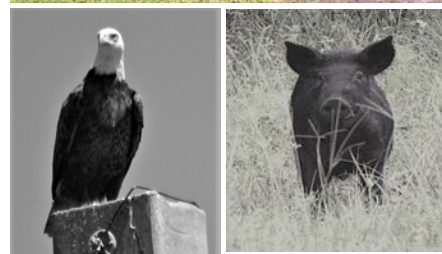

Cont'd from previous column

Please don't forget to donate your aluminum to Lazy Daze.

**Stay safe and healthy!**

## The World Around Us

Like so many of us, Donald and Corinne Steele found TW through connections with friends, the ability to have a dog, and land ownership. They have brought a new dimension to our community. Don's photographic ability and talent have given us a view into our local wildlife and biodiversity. Also, his camera in the nature preserve takes amazing pictures of our resident wildlife. Below are a sampling of his photos not only of our local critters but of the Lazy Daze workforce removing flooring and replanting our hedge.

# TW ACTIVITIES AND ANNOUNCEMENTS

## LeeAnn's Musings

By LeeAnn Magner

Wow! This is our last issue this season. Where did the time go? Amazingly, after a summer of everything being on hold because of Covid 19, once the season began, life got just a bit busier. Ok, it wasn't like previous years, but we were able to enjoy some of the fun activities that TW offers. Unfortunately, there were many activities that had to be canceled. Anything that required large groups of people in a confined space just could not happen. That included dances, entertainments, parties, or celebrations of every sort. We experienced heart-breaking events alone or with limited attendance. Weddings, birthdays and anniversaries went unnoted or attended by very few. Let us all pray that the vaccines offered give us the freedom to move about the planet that we took for granted until Covid.

Spring is upon us and with it hope is blossoming like the colorful flowers that show their faces every spring. Additionally, spring also means a mass exodus as our visitors from the northern climes return home. While those of us who live here year-round look forward to having our byways and restaurants less crowded, we all appreciate that snowbirds fuel our economy. We are happy that you are here because with you comes the abundance of activities and economic prosperity. So, as you make plans to head north, stay vigilant, the virus is still lurking, and stay safe and make good choices. Happy Trails!

## Congratulations to Betty Riedel

By Roberta Begley

Betty was the lucky winner of "Tropical Dreams," this year's quilt raffled on Sat.

3/6/2021.

For many years the TW Quilt Club has made a quilt to raffle as a fundraiser for TWERC.

We plan the pattern and choose the fabric, then everyone contributes by sewing blocks for the quilt top. For the last several years Lynn Ann Siegel has used her long arm quilting skills to stitch the quilt top to the backing & batting. Then it comes back to our group to add the binding.

This year our quilt "Tropical Dreams" was queen size and made of lovely colorful batiks.

Ticket sales were amazing. We sold over 1,000 tickets and received \$974 through the generosity of our wonderful neighbors.

Wait until you see what we have for next year!

A huge "Thank You" to all who were involved with this project – quilters, ticket sellers, and ticket purchasers.

## DID YOU KNOW

By Marcia Napolitan

Remember that you are in a condominium community and all communities of this type have rules to be followed for the exterior of your unit. Be sure to check for a rule on what you plan to do to the exterior of your unit.

As you know, many residents are having changes made to their units. But remember construction work hours are limited from 8:00 a.m. to sunset. That means that the owner is responsible for informing the construction company of this rule and that everyone will be considerate of their neighbors. REMEMBER: the Board has the right to reject any exterior plan. New precedents are not accepted readily.

Trees and flowerbeds need to be approved by the exterior committee. Article B6 gives all of the specifics. Be sure to check these 6 items before making your decision.

Did you know that your street lamp and post are the responsibility of the homeowner? The lamppost takes in the globe, the light bulb, the electricity to it, the wood or pvc of it, and how you keep the ground around it. The association has the right to remind you to change any part of it and pay for none of it. There is a dog park on San Casa where your dog can run and mingle with other dogs. You will need to pick up after it there too.

Did you know that your trash is not to be out before dusk the day before collection day? That means not 3 days before or even at 3 p.m.

That there are to be no fences of any kind. Does that mean a bushes fence too?

You know the winter season is almost over. Thank heavens and pray we have a good summer season (no severe storms), you stay healthy, and that those controlling our lives hand the control back to us, the responsible and common sense people.

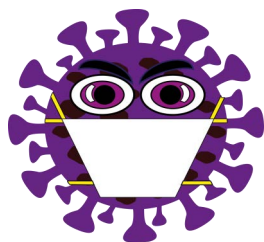

## PET RESPONSIBILITY

For those of you who are ignoring or flouting your responsibility to your neighbors and your pet, be aware that it is a law of the state that you pick up your pet's waste. It is not only a rule of our community, it is a **LAW**. Should the culprits be observed and reported to the authorities, substantial fines will be imposed by the governing authority. So, take responsibility for your pet and clean up after it. Not only is your irresponsible behavior illegal, it is also unsanitary and possibly hazardous.

## Deja Vu? By Ginnie Drew

Ever since it started, sometime in late 2019 or early 2020, depending on who you ask, the current Covid-19 pandemic has been compared to the flu outbreak in 1918.

I am going to shed some light on exactly what the 1918 pandemic was and how it compares with the current pandemic.

The 1918 pandemic was caused by a virus that, like the current one, was very easily transmitted by droplets and aerosol, which made mask-wearing important in its control. However, the virus itself (Influenza A Subtype H1N1) was totally unrelated to the current one (SARS-CoV-2). In fact, the coronavirus is not a flu virus, and is described as more like a viral pneumonia.

It was called the Spanish flu, but the first recorded deaths were from the US, France, Germany, and the UK, not from Spain. The misinformation occurred because it started during WWI, when Spain was neutral and did not censor their press, as did the other countries. Therefore, people first heard about it from Spanish newspapers and assumed it originated there.

The 1918 pandemic came in 3 waves. The first, mainly in Europe, started in March, 1918. It waned during the summer, but in October came the second wave. This was the one which caused the most deaths in the US. It was pretty much over by December, but in January, 1919, a third wave started in Australia and moved to Europe and the US.

The virus never actually disappeared, but a collective immunity developed by 1920.

There is no accurate count of the death toll from that virus, but estimates range from 17 to 50 million people worldwide, with some estimates topping at 100 million. It is estimated that one third of the population was infected. In the US, deaths were estimated at 675,000.

### **Things were much different back then.**

One cause of death from the virus is through secondary bacterial infections. Today we have antibiotics to treat them. At that time there were none. One of the main treatments for the 1918 flu was high doses of aspirin. Doctors were prescribing up to 30 grams daily, which we now know is toxic... doses above 4 grams are considered unsafe. So, it is believed that many of the deaths attributed to the flu were actually caused by aspirin poisoning.

They didn't have the sophisticated ICUs that we have now, with ventilators and other technology which we take for granted today.

They didn't have any vaccine, nor the ability to develop one. The first flu vaccine was approved in the US in the 1940's.

The world was embroiled in a war. The close quarters found in barracks led to easy spread of the virus, and troops moved from country to country, spreading the virus even more. Some say that more troops died from the virus than from battle.

Standards of hygiene were much lower at that time. But, the same advice re stopping the spread of the virus was much the same... wear a mask, wash your hands, keep your distance from others.

One way in which the 2 viruses are alike is that they are both "novel." Which means that they are so different from any previous viruses that no one had any immunity to them. One difference is in the demographics affected. The 1918 virus affected mostly healthy people between the ages of 20 and 40, as well as those under 5 and over 65. The current virus affects mainly those over 65 with underlying health conditions.

### **There have been other pandemics in the past 100 years:**

In 1956 - 1958 there was the Asian flu, which killed 2 million people worldwide and 60,000 to 70,000 in the US. The fact that they now had the ability to produce vaccines helped lower the mortality rate.

In 1968 there was another flu pandemic (H3N2 as opposed to H1N1 in 1918). About 1 million people worldwide and 33,000 people in the US died from that virus. The ability to create a vaccine and the better reporting and tracking were credited with lowering the mortality rate for that pandemic.

HIV pandemic: HIV was originally reported in 1976 in Central Africa, and was first recognized globally in 1981. An estimated 36 million people have died from this virus since then. The death rate has dropped significantly in recent years due to new therapies. In 2014, 7.8 million people died from the virus and in 2018 it was reduced to 770,000.

So it seems like the viruses keep coming, but we are better and better able to isolate, track and treat them as time goes on. Even without any vaccine we developed "herd immunity" from the 1918 virus within 2 years. So, we all have to keep doing what is necessary to protect ourselves and our loved ones, and pretty soon this will all be a bad memory... (Thanks to Marcia Napolitan for suggesting this article.)
